METHOD OF FUNDRAISING

The **Synod** issues debentures in the AFSA Community Fund to wholesale and to retail associated clients and lends the funds raised for profit to assist and grow the mission of the Anglican Church in the Diocese of Adelaide. The **Synod** generates a margin between the rates paid to investors and those charged to borrowers. This surplus funds the operating costs of the AFSA Community Fund. The AFSA Community Fund aims to retain surpluses sufficient to maintain its capital adequacy within a benchmark range of 8-10% of Risk Weighted Assets.

The **Synod** issues interests in the AFSA Enhanced Income Fund managed investment scheme, to entities that are wholesale associated clients. **Interests in the AFSA Enhanced Income Fund are not issued to any individuals including retail associated clients.** These funds are invested in a low risk capital stable portfolio with a view to generating a reliable income stream from a portfolio of quality interest rate securities while striving to preserve (and grow, where appropriate) the capital value of the portfolio through reinvestment. The goal of the scheme is to outperform the benchmark over a 12 month period net of fees.

The **Synod** issues interests in the AFSA Endowment Fund managed investment scheme, to entities that are wholesale associated clients. **Interests in the AFSA Endowment Fund are not issued to any individuals including retail associated clients.** These funds are invested in a balanced growth portfolio with a view to generating stable long-term returns for investors in the scheme. The goal of the scheme is to achieve a combined return for investors of income and capital growth, after fees, of 5%pa above CPI.

FINANCIAL YEAR

The **Synod** has a financial year of 1 July to 30 June, which applies to the operations of the AFSA Community Fund (debentures), the AFSA Enhanced Income Fund (managed investment scheme) and to the AFSA Endowment Fund (managed investment scheme).

AFS LICENCE

As a wholesale charitable investment fundraiser, the **Synod** is not required to hold an Australian Financial Services Licence and does not hold an Australian Financial Services Licence.

CHARITABLE PURPOSE

By issuing AFSA Community Fund debentures, the **Synod** promotes the charitable purposes of the Anglican Church in Australia. Investment in the AFSA Community Fund directly increases the share of surplus generated by the AFSA Community Fund. This surplus is distributed to Anglican parishes and associated entities at the end of each financial year. The issue of debentures in the AFSA Community Fund also leads to a reduction in the marginal cost of raising external funds. This saving is passed on to Anglican Parishes and associated entities when they borrow from the AFSA Community Fund to undertake charitable activities within their communities.

By issuing interests in the AFSA Enhanced Income Fund managed investment scheme, the **Synod** promotes the charitable purposes of the Anglican Church in Australia by providing an income stream directly to missional activities, while providing governance and stewardship of Church capital. Investments in the AFSA Enhanced Income Fund are only accepted from the **Synod**, Anglican Parishes and Anglican Organisations. Through the AFSA Enhanced Income Fund's application of its investment model the fund aims to generate a return to its investors at the Australian 90 Day Bank Bill Index (SBCBB) + a margin of 150 bps.

By issuing interests in the AFSA Endowment Fund managed investment scheme, the **Synod** promotes the charitable purposes of the Anglican Church in Australia by providing an income stream directly to missional activities, while providing governance and stewardship of Church capital. Investments in the AFSA Endowment Fund are only accepted from the **Synod**, Anglican Parishes and Anglican Organisations. Through the AFSA Endowment Fund's application of the Yale-Endowment model, investment in the fund aims to generate a combined return for its investors of 5%pa above CPI.
